

## **About Vibes Garden**

Since their forming and first staging in 2003, music has been and still is the big focus in the lives of four young guys from Zurich.

### **The Band**

Ever since the bassist had been replaced in October 2007, Vibes Garden perform in their second cast which features these four musicians:

Timo Homberger – vocals, guitar  
Simon Gräzer – drums  
Roland Andermatt – guitar, vocals  
Matthias Bär – bass

### **Sound**

Their style is simply rock, or maybe more accurately: lots of guitar, a native rhythm section and a heavy, but passionate vocal.

### **Live**

The diversity of their songs and the dynamic show make a “Live Concert” by Vibes Garden a thoroughly tremendous experience.

Because of good audience-response, they already played gigs in well-known Swiss venues like Abart, Volkshaus, Dynamo and the Gaskessel as well as in the Alpenrockhouse (all in Zurich and Berne).

They also played in lots of smaller clubs, at open-air and local rock-events.

### **Studio, Releases**

They recorded their first EP very early. A bit too early, as they now admit to themselves. The EP with their first own composed songs was released in May 2004. “Stone metal wood computer” was born!

To the disappointment of their fans and their very own, it is sold out.....

Their debut album, called “no end in sight”, was released in May 2009. The album contains seven songs, which they’ve recorded completely on their own and - as a special treat - they added two bonus-tracks, a result of a studio session in 2005.

At the end of 2010, the band recorded “Vibes Garden EP-2010”.

You really hear the progress of the Band and how it influenced the sound of their new songs!
